

JOURNÉES DES PLANTES DE CHANTILLY

Château de Chantilly
16 • 17 • 18 May 2025

To celebrate its 10th anniversary, the event explores the theme of “Unexpected Gardens”.

10 YEARS!

In May 2025, the Château de Chantilly will celebrate the tenth anniversary of the *Journées des Plantes de Chantilly*, making this a truly momentous occasion. Our journey began ten springs or ten falls ago in Courson, Essonne, and while we’ve physically moved – or rather, been transplanted – 50 kilometres since then, the event has grown and flourished in its new home. The event is now an integral part of the Château de Chantilly and a cornerstone of its identity.

Born from the vision of Hélène and Patrice Fustier, this event has blossomed over the years, thanks to the dedication of our committed team. Their legacy lives on as we continue to improve the exhibitor experience, showcase new talents and welcome a wider, more diverse range of gardeners, from novices to experts.

UNEXPECTED GARDENS: THE ART OF SURPRISE

The **'Unexpected Gardens'** theme perfectly embodies the spirit of the *Journées des Plantes de Chantilly*, which celebrates the art of surprise and inspires gardeners through the diverse displays of its exhibitors. True pioneers of the plant world, they do more than grow flowers: they cultivate wonder. Bringing the unexpected to life in pots and planters, they reveal rare and forgotten treasures and inspire visitors with innovative plant combinations, enticing them to dream of gardens they never thought possible. The event offers a glimpse into the extraordinary, showcasing the surprising and unexpected – the spark that ignites creativity and ambition. A garden, yes. But a garden beyond your wildest dreams.

The unexpected: a source of solutions

Beyond its aesthetic appeal, the unexpected can provide surprisingly practical solutions. Given the dynamic nature of our landscapes, this concept offers a pathway towards creative solutions and innovative ideas. How can we create gardens that are both beautiful and resilient? How can we be bold in our designs and practical?

Pieces of the same puzzle

The Château de Chantilly, where nothing is ever ordinary, provides an ideal backdrop for this theme. The event and its setting are perfectly intertwined, like pieces of a puzzle. Both, rich in flora and art, offer surprising, moving and inspiring experiences.

After two cancellations due to the pandemic, our nineteenth event aims to create an unforgettable experience for both exhibitors and visitors. Like the garden it celebrates, this festival is dynamic and ever-changing, evolving and reinventing itself each season.

USEFUL INFORMATION
